

DECLARATION

In connection with my voyage on board the container vessel “ M/V _____ ”

I, the undersigned passenger, hereby declare that I have been informed that this Vessel, on which the voyage will take place, is a working vessel and has only limited passenger accomodation.

I am fully aware that the Vessel will accept and carry any kind of cargo, including animals and other merchandise and that the sailing schedules and the ports of call and the order in which they are served are subject to cargo requirements and contingencies, and that consequently sailing and arrival dates and itineraries are not guaranteed.

I also take good note that alterations of any kind might occur at very short notice and that the Vessel may be substituted with another of limited or no accomodation capacity, in which case my reservation might be cancelled.

I have been notified that a temporary landing cannot be guaranteed in case the Vessel is not alongside the pier but will anchor outside the port.

I agree that any incurred expenses for services by the agencies in the ports of call must be payed by myself directly. Should it not be possible, the agency where I bought my voyage will charge the costs to me after my return.

I have also been informed that the Vessel does not carry a physician or any other medically trained and qualified person on board and that I must notify the Shipping Company or Travel Agent of any physical disability at the time of reservation. I must also hand them a medical certificate attesting that there is no objection against me travelling on board the Vessel.

A health and accident insurance is obligatory.

I have been advised that the carrier does not organize shore excursions of any kind. Shall I employ the assistance of port agents in order to disembark vessel for such convenience, I agree to directly compensate agent for any service fee resulting hereof.

I have further been advised that I must never leave the ship before I have been cleared by local custom and immigration authorities in every port called.

Due to stricter international security codes there may be intensive checks of luggage and/or passengers including personal search by security authorities or appointees, i.e the ship's security officer. I am aware that such examinations may interfere with my privacy for which the carrier cannot be held responsible.

I acknowledge having read, understood and accepted unreservedly all the terms and conditions contained on and inside the Ticket remitted to me by the Shipping Company or the Travel Agent in connection with the voyage;
